3.1.1 The heading of subsubsection, boldface, numbered

xx xxx xx xxxxx xxxxx xxx xxx xxx xxx xxxxxx
xxx xxx xxx xxxxxxx xxx xx xxx xxx xxx xxx xxx
xxxxxxxxxxx xxx xx xxxxxxx xx xxx x

Avoid leaving a heading at the bottom of a column, with the subsequent text starting at the top of the next page/column. Use extra spacing (between earlier figures or sections) to push the heading up to the top of the same column as its text. In view of the tight page constraints, however, do please make the fullest possible use of the text area. When a publication is referred to in the text, enclose the authors' names and the date of publication within the brackets, see (Tokyo, *et al.*, 1996). For one author, use author's surname and the date (Osaka, 1996). For two authors, give both names and the date (Kyoto and Shiga, 1996). For three or more authors, use the first author, plus "*et al.*", and the date (Tokyo, *et al.*, 1996). If giving a list of reference, separate them using semi-colons (Tokyo, *et al.*, 1996; Osaka, 1996; Nara, *et al.*, 1996).

Put only the date in brackets when referring to author(s) of the referenced publication (e.g., "This work was first developed by Tokyo (1996), and later expanded by Tokyo, *et al.*, (1996), who demonstrated that...") xxx xx xxx xxx xxx xxx xxx xxx xxxxxxxxxxxxxx xxx xx xxxxxxx xx xxx x

Fig. 1 Title of figure, left justified, subsequent text indented. Place figure at the top or bottom of a column wherever possible, as close as possible to the first references to them in the paper. Do not use colored photographs or figures.

Table 1 Title of table, left justified, subsequent text indented. Place table at the top or bottom of a column wherever possible, as close as possible to the first references to them in the paper.
